

# Nurse clinics

We are pleased to be able to offer our clients a range of **FREE** nurse clinics.

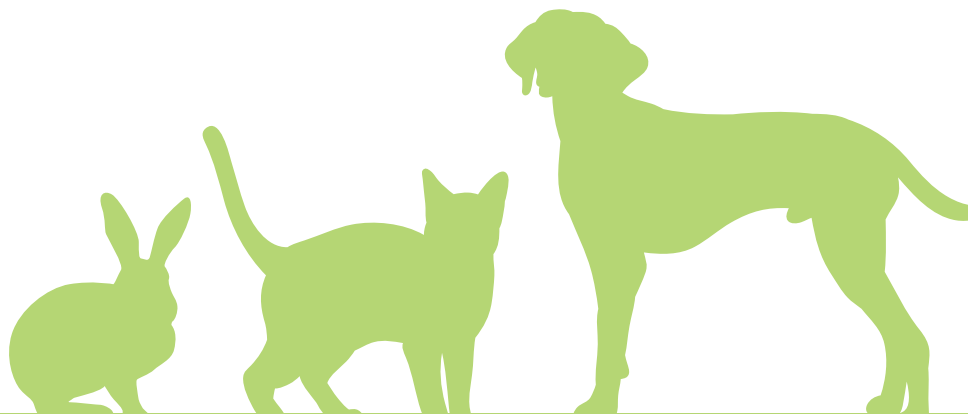

Our veterinary nurses will work with you on many aspects of pet care such as **dental care, weight and nutrition** and **flea and worm treatments** to help keep your pets fit and healthy so they can live fuller, longer lives. We can also offer appointments for your **adolescent** pets and a clinic for the more **senior** of your furry friends.

Our nurses can spot symptoms of health conditions before they become more serious if left untreated.

At our nurse clinics we will run regular check-ups and advise on preventative treatments that also make good financial sense for pet owners – prevention is cheaper than cure!

While our nurses are experienced and highly qualified, they will always refer you to a vet if necessary.

Speak to one of our receptionists to arrange your clinic appointment.
